

INITIAL DETAILS

Title: Fixture International Conference on Testing

Acronym: FICT

Rank: A

Requested Rank: A*

Size in terms of full published research papers each year (most recent first): 40, 38, 35

Estimated number of attendees: 200-500

Number of submitted papers each year (most recent first) 120, 115, 100

Acceptance rates (most recent first): 33%, 33%, 35%

H-index of highest ranked program/general chair each year (most recent first) 45, 44, 40

IMPACT

Citation Centiles

Information contained within these graphs is derived using the Elsevier Scopus Database 2025.

Percentages are calculated separately for 3 consecutive years (2022, 2023, 2024)

The percentage of papers in each rank within the relevant

Field of Research code(s) 4606.

FICT has 30% papers in the top 25% overall. A* papers have 66%, A papers have 43%, B papers have 22%, C papers have 11%.

Google Scholar Data

h5 index: 42

h5 index of 20th item in category: 55

Position in sub-category: 21st

Sub-category url: https://scholar.google.com/citations?view_op=top_venues&vq=eng_fictionalcategory

Author strength

FICT has 28% papers in the top 25% overall. A* papers have 60%, A papers have 40%, B papers have 20%, C papers have 10%.

PROGRAM COMMITTEE DATA

Median h-index of the members of the whole committee: 18.5

12 of the 30 recognised PC members were classed as established

Top 3 venues where PC established researchers publish: FICT, OtherConf, ThirdConf

This conference was in position 3 for PC established researchers

EXTENT OF STRONG PEOPLE INVOLVED

20 Area Leaders were chosen by the submitters, using the following selection method:
top-cited authors in the field. The intent and instruction was to identify leaders
by citation count.

Jane A. Smith (52); John B. Doe (48); Ana C. Garcia (44);

Top 3 venues where the selected leaders publish: FICT, LeaderConf, OtherConf

This conference was in position 2 for the selected leaders

ADDITIONAL INFORMATION

Conference Details

Most Recent Year

Year: 2025

Location: Sydney, Australia

Papers submitted: 120

Papers published: 40

Acceptance rate: 33%

Second Most Recent Year

Year: 2024

Location: Auckland, New Zealand

Papers submitted: 115

Papers published: 38

Acceptance rate: 33%

Relationship to similar conferences

FICT is the flagship venue for testing research and has no direct alternative venue covering the same scope.

Flagship area of this conference

FICT defines the flagship area of software testing research internationally.

Other Information

Other relevant information: FICT has run continuously since 2005 with consistently strong attendance.
